Land Reforms in India: Overall positive-negative points
The land reforms did not have the provision of land redistribution to landless farmers. Instead, it was envisioned that the government would cultivate the surplus land available after reforms and practise cooperative farming. The idea was to engage landless people in farming activity with the government investing credit and other inputs.

What impact did Charlemagne have on church history

Land reform is a form of agrarian reform involving the changing of laws, regulations, or customs regarding land ownership. Land reform may consist of a government-initiated or government-backed property redistribution, generally of agricultural land. Land reform can, therefore, refer to transfer of ownership from the more powerful to the less powerful, such as from a relatively small …
